MUSTANG

The Future of your Club

As we reported in last months flyer things won't be easy in the coming year.

However due to a recent generous donation we have made a start at fund raising for the new heating system. The family of the late Findlay MacDonald (a staunch supporter of the club) have donated the sum of £514.00 to be used solely towards a fund for the new heating system.

We will be placing collection buckets through out the club so that all members and visitors can add their support to this generous donation.

We need ideas for fund raising towards this venture. Maybe a sponsored evening of entertainment with the proceeds going to the fund or such like. Let us have your ideas.

We have been advised by the licensing authority that the Restaurant is open to non members. The only stipulation being that non members using the restaurant are not allowed to purchase alcohol.

We have an excellent facility here that is just waiting for development. Spread the word everyone the more people we get through the door the more chance we have of increasing the membership.

As we have said already we need to spread our wings and make better use of what we have.

That's the Burns Supper over for another year everyone. What's next? How about the ladies getting things going now for Easter! An Easter Parade with monies raised going towards our Heating Fund.

Don't forget the 15th of February. The Club AGM with the election's for committee on the 23rd/24th.

Should you choose to put your self forward to serve on the committee, please be aware that this entails four duty nights per month plus at least two committee meetings.

The Restaurant
